

Hematology

Dr. Krishnan provides diagnosis and treatment of blood-related disorders, such as:

- Low-blood count
- Anemia
- Polycythemia – elevated level of red blood cells

Blood-related cancers, including:

- Leukopenia – low count of white blood cells
- Multiple myeloma
- Lymphoma
- Hodgkin's disease
- Leukemia

Oncology

As an oncologist, Dr. Krishnan offers skilled diagnosis and treatment as well as pain management. She has a caring bedside manner and welcomes family involvement in each patient's care, which can lead to a better outcome, quicker recovery and a more positive outlook.

Areas of expertise:

- Breast cancer
- Lung cancer
- Colon cancer
- Ovarian cancer
- Other types of cancer

Services for cancer patients include:

- In-office chemotherapy
- Pain management through medication
- Oversight of home-based hospice care

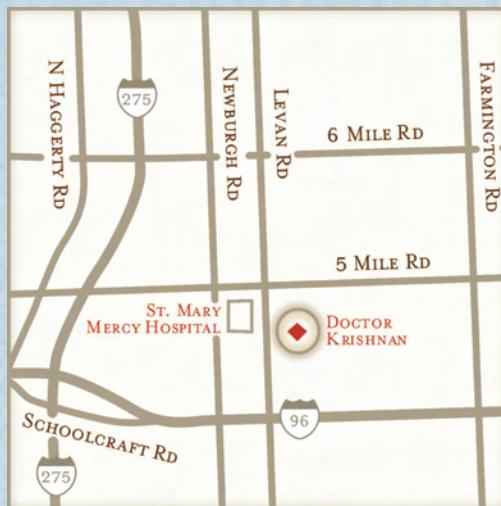

Geriatric care

Dr. Krishnan sees many elderly patients in her office. Patients benefit from her caring approach and broad base of medical knowledge.

Home visits

Homebound patients can be evaluated in their home. Please call our office to make arrangements.

Convenient office hours

Office visits are available Monday-Friday, with same-day appointments for urgent needs. To make an appointment, please call: (734) 464-7600. Cancellations should be made at least 24 hours in advance.

Emergency care

When you experience a condition that demands immediate attention, please go to your nearest Emergency Room. Upon arrival, inform the triage nurse that your physician is Dr. Krishnan so our office can be notified and provide follow-up care.

Hospital-based care

Dr. Krishnan has admitting privileges at:

- St. Mary Mercy Hospital, Livonia
- Providence Hospital, Southfield
- Providence Park Hospital, Novi

Expertise and caring

Your health is important to us. We are dedicated to providing the highest quality, compassionate care to adult patients. Our staff strives to make your office visit a pleasant experience by being responsive and focused on your needs.

About Dr. Krishnan

Amba R. Krishnan, M.D., practices internal medicine (primary care) and has expertise in geriatrics and hematology/oncology. In practice since 1986, Dr. Krishnan uses the latest techniques and knowledge to treat a wide range of

conditions. She takes the time to listen to patients' concerns, review findings of test results and recommend the next step for treatment or follow-up. She also treats patients who are referred by other doctors for acute conditions or ongoing medical management.

Dr. Krishnan earned her medical degree and completed her internship at Gandhi Medical College in Bhopal, India. She served a three-year residency in internal medicine at Providence Hospital in Southfield and a two-year fellowship in hematology at the Detroit Medical Center. She completed her fellowship in medical oncology at Henry Ford Hospital in Detroit.

Internal Medicine

We offer the following services for optimal health:

- Annual physical exams and general preventive care
- Pap smears and other gynecological testing
- EKG and Holter monitoring (24-hour EKG)
- Basic lab testing
- Health education and stress management
- Lung function test
- Asthma treatments
- Vaccines and immunizations
- Smoking cessation program

Weight loss program

Overweight adults, especially those who are 25% over their body mass index (BMI), are invited to participate in our weight loss program. We provide educational classes, a dietary supplement given under the supervision of a physician, and emphasis on a low-fat diet and exercise.

Prevention is better than cure

Prevention through diet, exercise, screening tests and astute medical management are part of Dr. Krishnan's comprehensive approach to patient care. Screening for cancer, diabetes, heart disease and other chronic conditions help identify these diseases at their earliest stages.

We offer in-office ultrasound testing to screen for:

- Peripheral artery disease (PAD)
- Heart arrhythmia
- Stroke (carotid artery blockage)
- Abdominal aortic aneurysm
- Osteoporosis (full body bone density)

We welcome new patients

Dr. Krishnan appreciates the many referrals she has received from physicians and satisfied patients. We invite you to tell family members, friends and business associates about our comprehensive care. Visit our website for more information: www.drambakrishnan.com

Comprehensive care for adult patients

- Illness prevention
- Health maintenance
- Complementary and alternative medicine
- Stress management

Insurance, fees & forms

Most insurance plans are accepted, please call our office for details. To keep medical costs as low as possible, we request payment at the time of your visit.

- We participate in Medicare.
- **Insurance forms** – Please complete any insurance forms and bring them with you to your first office visit, along with your insurance card.
- **New patient forms** – If you are new to our office, you'll need to complete a new patient form and health history. These forms are available on our website. It helps to have these forms completed when you come for your first office visit.

Prescriptions and lab results

Please call our office several days before your prescription expires and provide the name of the pharmacy and phone number. For test results, please call our office within the requested time period.
